The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 5-7 are rejected under 35 U.S.C. 102(b) as being anticipated by Kobayashi et al. (U.S. Patent 5,462,156).

Kobayashi et al. show a conveyor body 5 which is coupled to a three –phase synchronous motor 10 (see column 3, lines 13-19). The motor is an AC motor as would the power supply be AC. The conveyor body 5 is used to convey work.

Re claim 5, shown is a plurality of feed rollers 5.

Re claim 6, shown are a plurality of rollers 5 having motors 10 as well as rollers 6 not having motors 10.

Re claim 7, there are at least two feed rollers 5.

Claims 2-4 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Any inquiry concerning this communication should be directed to James R Bidwell at telephone number (703)308-1144.
